

Project Progress Report (PPR) Of Tharadari Community Development Organization (TCDO) April 1st to September 30th, 2009

Two Prayer Requests

- 1) Pray for our project as well as concerned staff.
- 2) Pray for those families who live in the far flung villages where access of the staff of the NGOs is not easy and on account of this they are deprived from the awareness of about health, education, family planning and its effects and May GOD create some way to aware them.

Constructive Attitude Can Create New Ways

Charo Patel is a targeted village of TCDO and there are so many villages surrounding this village. We always go in this village but the villagers give lukewarm response. One day when we went there for the meeting, one woman named Radha of this village was suffering from the pain for a week as she was pregnant. Due to lack of awareness their family members were waiting for the birth of child at home without taking any precautions. We have also had the home of this woman and found her in dangerous situation. We have decided to take her to hospital. After agreeing with their family, we took her at hospital by Taxi.

After having examined, Doctor said to her family that you brought her on time, if you would not come here at this time then the child and mother could have been died. Due to our positive behaviors the all members of Charo Patel have become cooperative as well as other surrounding villages are also inspired with our team now when ever we conduct meeting in this village so many other villager which are located nearby, also attended our program. It is noteworthy information that Mrs. Radha is also working as a volunteer with us and helps us during meeting, workshop, etc. Mrs. Radha says that I cannot forget that day when my and my son's life was in danger and you saved me. She and her family are very grateful to the staff of TCDO and its donors who support them. Now Radha is very happy with her son and says thanks to our staff for appropriate help.
